

**Amendments to the claims:**

Claims 1-8 (Canceled)

Claim 9 (New): A lounge chair, comprising:

- a hinged frame including a generally rectangular portion defining a frame opening;

- a fabric layer attached in a taut state to the rectangular portion of the hinged frame such that the fabric layer substantially covers said frame opening except for an opening extending therethrough, the fabric layer having upper and lower surfaces;

- a flexible pouch having a perimeter attached to the lower surface of said fabric layer about said opening to define a cavity; and

- a fabric flap having a first portion attached to the upper surface of said fabric layer adjacent to the fabric layer opening and a second portion releasably attachable to the upper surface of said fabric layer adjacent to the fabric layer opening.
